- Compatible With Microsoft MultiPoint Server 2010
- Integrated VGA Port Supports Up To 1600 x 1200
- Supports Widescreen Resolutions Up To 1680 x 1050
- 4 High Speed USB Ports
- Audio And Microphone Ports
- Add up to 10 MWS300 Stations per Server
- Certified 5 port USB hub available.

The MultiPoint Workstation 300 (MWS300) is designed specifically for Windows MultiPoint Server 2010. Simply connect it to an available USB port on the server and attach a monitor, keyboard, and mouse to add a new workstation. The MWS300 features four powered high-speed USB 2.0 ports, audio and microphone ports, and a VGA port that supports resolutions up to 1600 x 1200. Add up to 10 MWS300s per server. The MWS300 provides an inexpensive and reliable way to expand your Windows MultiPoint Server 2010.

BENEFITS

- Low cost solid state hardware
- Simple plug and play USB installation
- Simple administration
- Lower power consumption than other thin client solutions
- Reduced cabling
- Eliminates need for internal video card installation

SYSTEM REQUIREMENTS
